

Virtual Exhibition

eduXpo

St. Xavier's School Bathinda

July 17, 2021

Time 1.30pm

Exhibitions are organized for the general audience to gain insight and information that would remain effective in their life. Taking this into consideration and keeping in mind the interest of learners, virtual exhibition 'eduXpo' was declared open today by the dignitaries of our school. This event was inaugurated by the Manager, Father Christopher Michael and the Principal, Father Cidloy Furtado. This event was marked to ensure proficiency in learning by students and to make learning more joyful.

Keeping all these points in mind, students of classes 4 to 12 prepared beautiful models (videos) in this difficult time of pandemic. Be it Science or Social Science or languages or Mathematic display of talent, our students have put forth their creative ideas and skills. These talented students have virtually connected to all of us through their exhibit and laid a beautiful example of "**Learning by Doing**". By engaging themselves in hands-on experiences and reflection, they were better able to connect theories and knowledge learned in the classroom to *real-world* situations. It also allowed the learners to explore, to form a direct relationship with the subject matter.

At the outset we would like to thank our school management for enlightening us with their presence, knowledge and enthusiastic support.

This event won't have been possible without the collaboration of our dedicated teachers and cooperative parents.

A special thanks to our children of classes 4 to 12 who worked day in and day out to make this event possible.
