

## TEACHER'S DAY VIRTUAL CELEBRATIONS 2020

Teachers Day is celebrated across the country on September 5 with great fervour in schools and educational institutions to commemorate the birth anniversary of philosopher and academician Dr Sarvepalli Radhakrishnan. All the schools are closed since March due to the lockdown to contain the spread of the Novel Coronavirus (COVID-19) pandemic. Teachers and students moved online since then. If all the other festivals are celebrated online due to pandemic, why not Teachers Day!

St. Xavier's celebrated Teacher's Day virtually for the unsung heroes of COVID. As we thank our warriors on the **FRONTLINE**. The future looks forward to it's set of Doctors, Bankers, Scientists, Police and Change-makers. And to shape that future steadfastly- one such person continues to teach everyday. Here's to all the teachers who are not Letting this Pandemic affect **ACADEMICS**.

**TEACHER** – a multitasking educational rockstar who lives to inspire and loves to encourage !

To acknowledge the contribution of all our teachers for giving a new meaning to the student's life, the Xaverian Family thanked every teacher, who has been the guiding force during the lockdown. The teachers not only taught the new way to learn but also motivated the students.

The event began with a Live **Virtual Assembly to celebrate the occasion** followed by the school Manager's and Principal's speeches to thank all our unsung heroes. After the formal programme, our team of teachers conducted games for the staff members and then prizes were announced after the games were concluded. The programme wrapped up with wonderful memories to be cherished forever. All in all, it was an eventful day full of surprises which was enjoyed by all.

The entire programme created a great enthusiasm among the teachers. The students of Class 11 and 12 paid tribute to their respected teachers through online speeches and monoacts which were a treat to the eyes to watch and made everyone happy.
