Dear Parents & Students,

The new 'National Education Policy 2020' seems futuristic and offers choice, chance, challenge, and change but I firmly believe that implementation is the key. The implementation of the spirit and intent of the policy will be the most crucial matter. We welcome this breath of fresh air in our educational system.

St. Xavier's School has always sought for the holistic development of learners and also consistently topped the X Std CBSE board exams at Bathinda District in the last few years. Last year was especially exceptional because our Student topped at the National level. We appreciate the hard work of our students and their parents for consistently making us at St. Xavier's proud with their determination and achievements.

This year 70.34 % of Class X students have scored above 75 % in the CBSE board examination. This indeed is an incredible feat. The Class XII results too were praiseworthy with 67.34% students scoring 75% and above in the CBSE board examination. The credit goes not only to our diligent students but also, to our teachers and management for their selfless efforts over the years. The school has always tried to ensure that there are higher-order thinking skills, critical thinking, creative thinking, effective communication skills, and knowledge of technology in the school curriculum that our students will need in the twenty-first century.

To make our children learners and thinkers and not just rote learners, the school has taken initiative to plan lessons and teach students according to 'Bloom's Taxonomy'. This will assist children not only to remember and understand but also to apply, analyze, create and evaluate. Thus 'learner and the learned' will be assessed in a very comprehensive way in the Half-yearly examination.

Do visit the school website for Syllabus and Date sheet for Term I / Half Yearly Examination.

Kindly note:

It has been observed that some students do not attend online classes. We would like to inform you that your 75% online attendance is mandatory to sit for the examinations. The school will follow this rule very strictly. Teachers are keeping the record of attendance for each subject.

In the end, I would just like to wish our students the very best for the rest of this academic year and anticipate their valuable cooperation to help us move forward with clear goals and ambitions.

Remember students, marks are important but the real education is when we can apply what we've learned. I am determined that with our collective hard work, we can sail through the current scenario of online education smoothly. Good luck!

Regards,

Fr. Cidlo Furtado
