

Awareness Program On Dengue
Organised by: St. Xavier's School, Bathinda
Venue: St. Xavier's School, Bathinda
Date: 25.08.2022

An awareness program on Dengue fever was held at St. Xavier's School for the staff members in its campus.

Mr. Sukhpal Singh, Senior Health Inspector was the spokesperson for the session who was accompanied by Mr. Varinder Singh and Mr. Johny Kumar - Health Supervisors.

The officials explained the causes of the disease and guided upon the ways to prevent the same. They also guided about the ways to take care of a person who gets infected.

It was an interactive and enriching session and in true sense an awareness session on a disease which is so often neglected when it comes to imparting knowledge among the public.
