

## **Two-day Workshop for Teachers**

In the view of keeping the faculty positive and upgraded with times, the school organised two-day workshop for the teachers on 26th - 27th May, 2023 wherein different speakers shared their expertise with them.

The workshop began with a seminar on 'Positivity in Life' by Mr. Sudhir Kumar who started with the quote 'Attitude towards Life determines Life's attitude towards us' and shared various examples of positive attitude. He stated that nothing is impossible if the attitude is positive and no matter how talented or calibrated we are, if the attitude is negative we cannot use it to its fullest potential. He also stated that teachers should always keep the child in them alive and should be open to new learning. They should imbibe in students emotions- towards each other, towards parents, towards environment along with teaching curriculum. The session was very enriching wherein teachers got a glimpse of how they can widen their horizons while teaching.

The second seminar revolved around 'Fostering a Balance Between Technology and Human Interaction in the Modern Learning Environment'. The resource person for the same was Mr. Tariq Ahmed Masoodi and he started the interaction with the question 'Is technology good or bad?' It was a highly interactive session wherein the teachers and the speaker discussed various aspects of technology being an irreplaceable part of our lives. He also guided the teachers how the 'generation X' cannot be kept isolated from the technology instead asked to use it wisely for the advantage of students so that the desired outcome is achieved.

The seminar on '21st Century Skills' was organised on the second day of the workshop. The spokesperson for the same was Ms Bhavdeep Kohli. All the teachers participated in the session while putting their queries forward and grasping the wisdom shared by the speaker. The session was very interesting that included various techniques to make teaching more interactive and focused towards making children more confident, better team players, critical thinkers, decision makers. She emphasized upon teachers to serve as guide or mentor to the children. She also stated that the teachers need to be tech savvy, flexible, creative and critical thinkers to inculcate soft skills among children along with the hard skills.

All the teachers expressed their gratitude to the management for organising such seminars in order to help them in honing up the teaching skills.
